Pollinators – services and protection

Dagen er sponsoreret af:
Who are here today?

8 municipalities - managing public land, road sides, parks, recreative areas

13 NGOs and farmers organisations

23 honey bee keepers or interested

5 reps from Ministries and various Agencies - responsible for implementing EU policies on nature conservation and agriculture (5 personer)

14 advisors from the farming sector and nature conservation

44 researchers and students - the largest group but less than half
"I see …. exaggeration on both sides as a necessary part of the democratic process to trigger rapid policy changes. It is simply impossible to interest millions of members of the public, or the farming press, with carefully reasoned explanations”.

“Scientists must not be turned off by the rhetoric but motivated by it”

Dicks 2013 Bees, lies and evidence-based policy. Nature 494
